(54) Title: AUTOMATIC FLOWER-SELLING EQUIPMENT

(57) Abstract: The subject of the invention is automatic flower selling equipment, which contains a house (10) including storage space (11) suitable for storing and protecting flowers (2), a bearing unit (20) situated in the storage space (11) of the house (10) for displaying the flowers (2), a moving unit (30) connected to the bearing unit (20) and a control unit (40) connected to the moving unit (30), the control unit (40) is connected to a selecting partial unit (41) situated on the casing (12) of the house (10), the bearing unit (20) has a supporting column (21) attached to the house (10) in a rotatable way and supporting structures (22) attached to the supporting column (21) below each other, where the supporting structures (22) have a supporting tray (23) suitable for supporting the flowers (2), and one or more delivery doors (13) are arranged on the casing (12) of the house (10), and the delivery door (13) is connected to a delivery outlet (14) for taking out the chosen flowers (2). The characteristic feature of the invention is that at least some of the supporting structures (22) have a distributing ring (24) co-operating with the supporting tray (23).
